

YRC Worldwide Inc.

Management Biography

Mark Boehmer

Vice President and Treasurer

Managing the capital for North America's largest publicly-traded less-than-truckload (LTL) transportation company and its four operating companies is no small task, but this is what Mark Boehmer has done for YRC Worldwide (YRCW) since joining the company in 2013.

As Vice President and Treasurer, some of his responsibilities include cash management, liquidity management, managing insurance policies and the capital expenditure process.

Before joining YRCW, Boehmer was Vice President and Treasurer for Trinity, a North Carolina-based Sealy Corporation.

He holds both a Bachelor of Accounting and a Master of Accounting from the University of Missouri.
